All Plastic Modular Belt

Mesh Belt

Custom Build and Turn Key

L.A.C. market leaders in belt conveyors and manufacturers of custom built conveyors

Modular and Slat Belt

LAC Conveyors produces an extensive range of modular belt conveyors with versions suitable for all industries and environments.

Environments and Applications

- Food
- Paper
- Packaging
- Automotive
- Materials Handling

Frame Materials

- **Stainless Steel (304 or 316)**
- **Powder coated Steel**

All our conveyors are robustly built to withstand the harsh environments of today's industry. Only the best quality belts and drives are used to guarantee the performance levels expected by our blue chip customers.

Designers and Manufacturers of

Chain, Pallet and Roller Conveyors

L.A.C. Conveyors manufacture a range of chain driven powered roller conveyors to handle loads up to 10,000kg

- **Mild and Stainless Steel**
- **Driven and Gravity Roller**
- **Turn tables**
- **Vertical Lifts**
- **Chain Conveyor**
- **Multiple widths and Roller Pitches**
- **Transfer stations**
- **Pallet stackers/De-stackers**

New All Plastic Modular Belt

The all new plastic modular belt has been introduced to the UK market as an alternative to stainless steel for harsh and wash down environments. The advantages of the all plastic modular belt are:

- **More Cost effective than Stainless Modular belt**
- **Suitable for all harsh and wash down environments**
- **Very low maintenance**

Conveyors for the OEM Market

Mesh Belt

Used in many industries LAC Conveyors can supply most belt types sizes and configurations. Industries include:

- Food baking, washing, cooling and freezing
- Heat treatment and hot product handling
- Drying
- Metal working
